VOL. XXXI.

STANFORD, KY., FRIDAY, APRIL 10, 1903. 8 A M

NO. 12

SOMERSET.

Mr. Sam Higgins continues to sell lots and build houses.

Dr. J. B. Newell, who recently returned from Montana, died suddenly at his home on Monday.

Joe Lee, who was thought to be mortally wounded at Williams at Williams Siding, was brought here and is receiving scientific treatment from Dr. Reddish.

It is greatly feared the continued cool weather has damaged the fruit, and now the heavy rain falls prevent farmers and gardeners from getting in much necessary work.

Our long pipe line is complete to Barbourville en route to the sea coast, and our long distance telephone is seeking franchise to take the Cumberland lines and the Blue Grass.

Mrs. W. R. Watkins, of Campbell's burg, was called to nurse her mother, Mrs. Stapp, through a struggle with the grip, and is now protracting a visit to the family of O. P. McMahon.

In tearing away the old Brinkley Hotel the workmen find that the wood work is in a fine state of preservation, better than lumber of the present day. It was made by the whip saw many years ago.

The various millinery stores are making great display. Miss Newman's opening was no April fool, but a veritable reality, and Mrs. Higgins' display was creditable in every sense. Other windows will be exhibited in due time.

I clip the following announcement in full from the Somerset Journal: "Burris Hamilton McMahon is the pretty name appearing on a time card attached by a white baby ribbon bow to a larger card, bearing the inscription: Mr. and Mrs. O. P. McMahon. The friends of this popular and promising young minister and his attractive wife are delighted at the announcement. The little man arrived on April 4th."

Somerset has never had so great possibilities as at the present moment. Our people must be up and doing, wide-awake and sober, for opportunities never occur but once. We are grateful that the editor of the INTERIOR JOURNAL found things just as we have tried to represent, and he capped the climax, so really there's but little left to say, only we aim to continue to let our taper light shine so our sister Blue Grass towns may gather inspiration and profit thereby.

How long will it take the man to fill the sack if he does not stop the leak? To attempt to nourish the body when the stomach is diseased is like trying to fill the sack with the hole in it. When the stomach and other digestive and nutritive organs are diseased, there is a constant loss of nutrition.

Enough is eaten but the body loses flesh, plain proof that the food eaten is largely wasted because it is not digested and assimilated.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It stops the leaks by which nutrition is lost, and enables the building up of the body by the nutrition derived from food. The gain in weight proves the cure.

"Three years ago I was taken sick with what the doctor called nervousness and indigestion," writes Mrs. Warren R. Parker, of Orange Street, Nantucket, Mass. "He gave me medicine for the trouble, but I could not eat even a little toast or oatmeal without suffering severely. In a few months I began to have distressing pains right in the pit of my stomach. I called the doctor again and he said I had catarrh of stomach; gave me medicine but it did not do any good. I lost 25 pounds in three months. I then commenced taking Dr. Pierce's medicine and soon began to feel better. I have taken six bottles of 'Golden Medical Discovery,' two of 'Favorite Prescription' and six vials of Dr. Pierce's Peppermint Cure. I have gained ten pounds. Can eat everything."

Dr. Pierce's Pleasant Pellets cure constipation.

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy is taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases, we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by Craig & Hocker.

Adverse criticism of Mr. and Mrs. John McCormick, of Helena, Mont., who rewarded the man who discovered \$18,000 of buried treasure under their house with a \$1 bill is uncalled for and unseemly. The discoverer was a plumber. The other \$17,999 will be needed to meet his bill.—Louisville Times.
